

ANIRUDH UNDRAKONDA

Associate Software Engineer | Data Pipelines & ETL | Cloud · Python · SQL · AI-Assisted Development
(860) 593-2423 • aniundrakonda@gmail.com • linkedin.com/in/aniundrakonda • Hartford, CT

SUMMARY

Associate Software Engineer at Travelers, building scalable data pipelines and automating ETL/ELT workflows across enterprise MDM systems. Combines strong Python and SQL fundamentals with hands-on cloud experience (AWS, Azure) and AI-assisted development using Claude to accelerate delivery, plus a GIS background and a track record of leading technical teams to first-place results.

EXPERIENCE

Associate Software Engineer

Travelers | February 2025 – Present | Hartford, CT

- Build and maintain scalable data pipelines in Databricks, automating ETL/ELT processes and enhancing data modeling workflows across enterprise MDM systems.
- Leverage Claude (Anthropic) as an AI-assisted development tool to generate, refactor, and document Python and SQL code, improving day-to-day development efficiency and reducing turnaround time on routine engineering tasks.
- Designing Claude-assisted automation workflows integrating AWS services and secure API-key authentication to automate data loading into MDM tenants, eliminating tedious manual load processes.
- Develop reusable Python scripts for automation, orchestration, and validation of data processes, applying OOP principles for consistency across environments.
- Optimize database queries using Oracle SQL and Microsoft SQL Server, improving performance and maintainability for large-scale datasets.
- Support cloud-based development using AWS S3 for data storage and Azure DevOps for CI/CD pipeline execution and version control.
- Participate in agile ceremonies, sprint planning, and technical documentation of MDM processes in fast-paced development cycles.

Data Analytics Intern — BI&A Geospatial

Travelers | June 2024 – August 2024 | Hartford, CT

- Automated SQL query execution and ETL processes using Python to significantly reduce manual effort and improve data accuracy.
- Collaborated with a senior software engineer to design and optimize SQL databases for scalable data storage.
- Built Python scripts to automate the extraction, transformation, and loading of data between SQL tables, ensuring data integrity.

Operations Leadership Intern — Claim Services BI&A

Travelers | June 2023 – August 2023 | Hartford, CT

- Led a company-wide hackathon team to a first-place finish, demonstrating leadership, technical creativity, and cross-functional collaboration.
- Assisted Scrum Master with Rally Board upkeep and PI Planning documentation, gaining hands-on agile project management experience.
- Coordinated a shared drive redesign to improve file organization and accessibility for team members.

Sales Associate

GNC | June 2022 – August 2022 | Glastonbury, CT

- Consulted with customers daily to assess health and nutrition goals, translating needs into tailored product recommendations that drove sales and repeat business.
- Managed point-of-sale transactions and daily cash reconciliation, building a foundation in business operations, revenue tracking, and financial accountability.

KEY ACHIEVEMENTS

Hackathon — First Place

Led a company-wide Travelers hackathon team to a first-place finish across cross-functional competitors.

Academic Honors

Dean's List (Fall '22, Spring '23, Fall '24) and New England Scholar (2024) at UConn.

Revived Geography Club / UConn Men's Club Basketball Head Coach

Restored UConn's Geography Club and secured multi-year funding while leading student geospatial projects; became UConn Men's Club Basketball Head Coach.

TECHNICAL SKILLS

Languages: Python, SQL (Oracle, MS SQL Server, Snowflake), JavaScript, R

Data & Cloud: Databricks, AWS (S3), Azure DevOps, ETL/ELT Pipelines, Master Data Management, CI/CD

AI Tools: Claude (Anthropic), AI-Assisted Development, Prompt Engineering, API Integration & Key Management

Tools: ArcGIS Pro, ArcGIS Online, QGIS, Figma, Git

Methods: Agile/Scrum, OOP, Data Governance, Data Modeling, UI/UX

EDUCATION

B.S. in Geographical Information Science (GIS)

University of Connecticut

May 2024 | Storrs, CT

Honors: Dean's List (Fall '22, Spring '23, Fall '24); New England Scholar (2024).

LEADERSHIP & PROJECTS

President, Geography Club

University of Connecticut | Aug 2022 – May 2024

- Restored UConn's Geography Club; mentored students and led geospatial data visualization projects with external partners.
- Established multi-year club funding through financial review with the UConn Club Board.

Team Lead, Cyber Infrastructure Competition

University of Connecticut | Aug – Dec 2023

- Led the GIS team in building a predictive bike-share model for Manhattan using space-time cube analysis and fishnet-based AI modeling.
